Guide for Giving
Policy to Guide Acceptance of Donations, Sponsorships and Services

P.L.A.N. adopted a Guide for Giving in November of 2011.

P.L.A.N. welcomes, encourages and seeks financial support from individuals, organizations and businesses that support our mission, objectives and projects.

Our mission is, through research and education, to help preserve and protect open space, rural land, wildlife habitat, wildlife movement areas and sustainable living activities. Respect for the environment as we live on our planet is important to us in enacting our mission.

P.L.A.N. will accept donations in accordance with our mission.

To maintain organizational integrity, P.L.A.N. evaluates all potential sources of support. We will not be able to accept donations from individuals, organizations or businesses whose activities include environmental destruction or degradation and whose activities are not congruent with P.L.A.N.'s mission, objectives and projects.
